

January 2000

TO: Door County Board Supervisor
RE: Heineman Property

or Dear _____,

The recent vote concerning the above property was most disappointing. The land is unique in so many ways, as it is adjacent to an existing park, offers scenic and bluff vistas and is one of only three pieces of Niagara Escarpment in the county that remain intact

This property gives the Board an opportunity to preserve a piece of the Door Peninsula's heritage, which is so quickly disappearing due to intense development pressures. For current and future generations, please give consideration to another vote, and this time, vote to save a piece of the peninsula. Once gone, replacements are impossible.

With appreciation,
